1. A high echelon headquarters and about 6 to 8 biplanes were stationed at the Warder (N 53/2 53) airfield on 12 February 1951. A Dakota plane landed at the field two or three times a week. The field was in poor condition because the drainage system was not in operation.

2. On 17 February, the airfield was not occupied by an air unit. The higher headquarters and officers' training courses were still being held at the field.
